The Artison Nano Backpack P5 is a compact, ultra-thin theater hub for the digital age. Measuring a mere 1.1" H x 11.75" W x 11.5" D, Backpack is specifically designed for high performance home theater audio and ultra-simple installation; whether it is mounted on the wall, in the wall, or behind a display. Its diminutive size belies its powerhouse capabilities.

The five internal Class D amplifiers power any passive LCR and surround channels using Continuous Sigma Technology for Class A sonics and feature integrated Dolby Digital, DTS, and Dolby ProLogic II/IIX decoding. The Backpack offers maximum connection flexibility, accepting a wide variety of sources thanks to its extensive array of inputs.
