SAVANT TOUCH CONTROL SCREENS

The Savant Touch 8 and Savant Touch 5 are 8 inch and 5.5 inch control screens which deliver dedicated and elegant control with stunning, high resolution graphics. Control services throughout a home or facility, including audio, video, climate, security, pool/spa and much more. Activate scenes, view security cameras, or simply crank up the tunes, a Savant touch screen is perfect for high traffic areas where quick control is a must.

The Savant Touch 8 includes a new higher powered processor for even greater responsiveness with large systems.

- Compatible with new or retrofit installations with Power over Ethernet (PoE) connectivity
- Wake up screen configurable to a specific room or service.
- Presence sensor to wake the touch screen when a person approaches
- Works with Blueprint - does not require a config upload but users can be added in Blueprint for room restrictions.
- Embedded Microphone and Speaker for use with entry services
